## HUMAN DEVELOPMENT CENTER FOR ALL

---

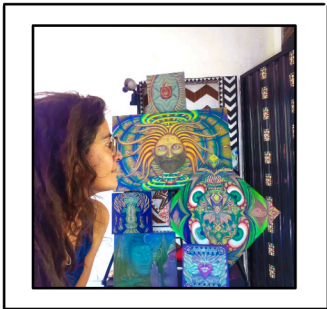

In the quest to explore transcendental artistic expressions, Marina Anauate and Fabio Danilo, creators of audio and visual art, through the project Zion Rebels - Human Development Center for All - have the mission to keep the flame of psychedelia alive, the alternative experiment of the psyche.

To this end, Marina uses visual art as a means of communication. Drawing, painting, and digital art are the mediums she employs in her works. She develops an authentic form of creative expression, with the intention of translating images from the infinite through shapes, colors, and symbols of the collective subconscious.

# WINDOWS TO TRANSCENDENCE

All works are handmade by the artist  
Marina Zion Rebels.

The possibility of creating artifacts that are tools for  
self-realization.

Windows to another state of consciousness and frequency,  
even if only for brief moments, where time is dissolved,  
giving the observer the chance to break free  
from the shackles of ordinary life.

Inspiring, learning, and sharing  
the flame of consciousness for the life of others.

# BLOOMING

Blooming - Marina Zion Rebels

2023
